WELCOME

01

Dear Students,

Welcome to *The City School's* A Level programme! We are delighted to have you join us on this exciting academic journey. Our supportive environment will enable you to achieve both academic and social success. Remember, your time with us is not only about academic excellence, but also personal growth and being a responsible member of society. *The City School* community encourages you to embrace opportunities and strive to be your best self.

Our commitment extends beyond your academic success to ensure that you have every opportunity to develop skills and aptitude to provide you with the competitive edge in the global arena. At the heart of the A Level experience, we cultivate in each student a genuine love for learning and encourage a culture of life-long knowledge. When you join us, you become part of a community of more than 150,000 full-time students in over 500 schools, each following an advanced learning programme suited to their needs and aspirations. *The City School* campuses provide a friendly and purposeful environment promoting positive attitudes and relationships.

Our A Level Programme offers a wide range of subjects through Cambridge Assessment International Education, EdTech driven learning tools and global learning resources. Simultaneously, students are engaged in extensive co-curricular activities, youth programmes and global interactions. Our dedicated team of highly qualified and experienced teachers work in close collaboration with parents and on-campus career counsellors to provide a holistic learning experience, enabling students to make better-informed career decisions that maximise individual capabilities and workplace needs.

We look forward to a shared journey as you embark on the next phase of your academic journey.

Yours Truly,

The City School Management

Established in Karachi in 1978, *The City School* is today one of the largest private school networks in Pakistan. It currently has over 143 schools in 46 cities. *The City School* continues to expand its reach to meet the demands for quality education across the globe. Today we stand proud as an organisation with a presence in UAE, Oman, Malaysia, Saudi Arabia and the Philippines.

The City School A Level programme is one of the oldest in the country and therefore an established and preferred college destination. *The City School* has a large network of 21 A Level programmes across the country which makes intercity transfers easy. At *The City School* there is a balance between academics and co-curricular activities and every student can explore their hidden talents by participating in interschool as well as in-house activities.

In addition to the A Level Programme, *The City School* also offers Intermediate programmes at a few chosen campuses.

A LEVEL

Cambridge allows learners to choose from a range of assessment options. Students can:

- Appear for all A Level courses (A1 and A2) in the same examination session at the end of two years.
- Appear in a staged assessment by taking Cambridge AS Level (A1) in one examination series and A Level (A2) at the subsequent series.
- It is mandatory for all students of *The City School* to appear in AS examination at the end of first year of A Level.

INTERNATIONAL EDUCATION (CAIE)

All A Level campuses at *The City School* are registered with Cambridge Assessment International Education (CAIE) and meet all requirements to offer A Level qualifications.

04 OUR CAMPUSES AND FACILITIES

The City School network celebrates creative and physical as much as the academic and intellectual development of our students. Our A Level campuses include open grounds, basketball courts, science and computer labs, libraries, art and music rooms, gymnasiums, and common rooms. Our flagship campuses also have in-house theatres and spacious grounds.

MODERN CLASSROOMS

Our spacious classrooms are equipped with modern amenities like multi media projectors and smartboards to create an effective learning and teaching environment.

SCIENCE LABORATORIES

Laboratories that conform to Cambridge International standards are fully equipped with all the requisite apparatus and chemicals. These are regularly upgraded in accordance with the CAIE syllabuses.

COMPUTER LABORATORIES

Equipped with state-of-the-art technology under the supervision of highly trained staff, our computer laboratories provide networking and internet facilities to the standards required by Cambridge International.

SPORTS AND PHYSICAL FITNESS

Outdoor sports and indoor games provide opportunities for all students to develop their skills through well-equipped gymnasiums and playgrounds. We have well-trained and highly qualified national coaches for most sports, especially cricket, football, hockey and indoor games.

COMMON ROOMS

Our common rooms promote a balance between academic focus and social engagement, providing a welcoming space where students can recharge and foster meaningful connections with their peers.

CAFETERIAS

Our A Level campuses have air-conditioned cafeterias which maintain a high standard of hygiene and cleanliness and cater to a variety of tastes at affordable prices.

05 COLLEGE COUNSELLING OFFICES

College Counselling Offices provide informative flyers and prospectuses detailing colleges and programs, including academic offerings, campus culture, and important application, scholarship, and financial aid deadlines. These offices ensure students have up-to-date information as they pursue higher education opportunities.

LIBRARIES

Air-conditioned and comprehensively stocked libraries provide an environment that promotes self-study, research and investigation. Computers and internet access in the libraries enable students to conduct online research and access global resources.

CO-CURRICULAR OPPORTUNITIES

YOUTH LEADERSHIP PROGRAMMES

The Youth Leadership Programmes are designed to meet the rising demand for entrepreneurial skills by employers and universities globally. Students polish their soft and technical skills through public speaking and cross-functional projects, self-awareness activities and project management skills whilst also developing a sense of connectedness to one's community. The programmes also offer opportunities for personal enrichment and developing leadership skills.

ENRICHMENT PROGRAMMES

Our Enrichment Programmes encourage individual and group talent encompassing singing competitions, debates, the performing arts, social service, design and photography.

Our A Level Programme is a natural progression from our Values-based Education (VbE) experienced by our students in earlier years and aims to provide our young adults with the requisite knowledge and skills to become active, effective and socially-aware contributors to society.

Our students are involved in community service programmes enabling them to become empathetic individuals of tomorrow through fundraising activities and global initiatives.

ADVENTURE HOSPITALITY

Adventure Hospitality is an extension of experience-based learning. It is an initiative that introduces students to other cultures, provides environmental education and sporting experiences, refines their communication skills, and helps prepare them to become global citizens.

A key underlying objective is to instil respect, tolerance, understanding and fair play. In collaboration with the National Climbing and Mountaineering Federation (Alpine Club of Pakistan), *The City School* has introduced Attitude 4 Altitude, one of the most successful events in the history of the sport of climbing in Pakistan. This event cultivates a 'can do' attitude in young people.

Our Adventure Clubs provide students opportunities to explore local, national and international destinations thereby increasing their exposure and developing their understanding of the real world.

HOW TO CHOOSE YOUR SUBJECTS?

Our A Level campuses offer a wide choice of subjects and combinations. We advise you to choose your subjects according to your interests, aptitudes and career plans. Here are some guidelines:

1. Find a course which closely matches your interests and talents. Take your time to conduct research and ask for advice.
2. You could try asking yourself the following questions that will give you a wide choice when it comes to applying to universities.
 - Which subjects interest me?

- What are my inherent talents and skills and how can these be drawn out through the subjects I study?
- Which courses promise ample opportunities for employability in the future and match my career aspirations?
- Do I need to study specific subjects for university entrance if I have a certain career in mind?

Please visit your nearest *The City School* A Level Campus to consult with our specialist Career Counsellors for further guidance.

EDUCATION EXPO 2024

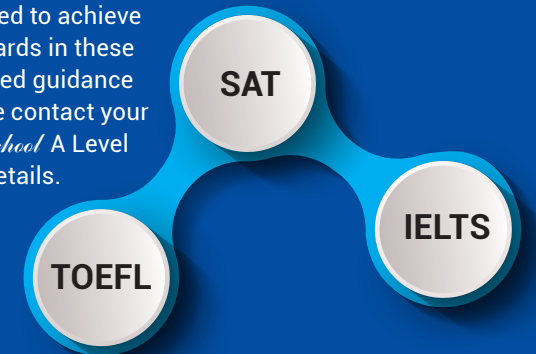

POWERED BY
The City School

The City School Education Expo 2024 was a landmark event that brought together prestigious universities from around the world, offering students a unique opportunity to explore higher education pathways. Renowned institutions from countries such as the USA, UK, Canada, Australia, Germany, Malaysia, and Pakistan participated, allowing students to engage directly with university representatives, explore academic options, and receive guidance on applications and scholarships. Held in Lahore, Rawalpindi, and Karachi, the Expo featured interactive sessions, free IELTS mock testing by IDP, Pakistan, and valuable networking opportunities, making it an unmissable event for students planning their academic futures.

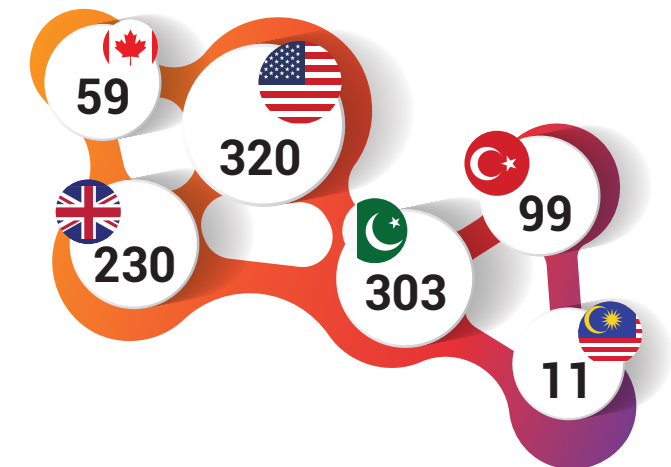

UNIVERSITY ENTRANCE TEST PREPARATION

Students are assisted to achieve International standards in these tests through focused guidance and support. Please contact your nearest *The City School* A Level Campus for more details.

UNIVERSITY ACCEPTANCES - YEAR 2023

The Counseling, Alumni & Placement Services (CAPS) provide tailored career guidance through a dedicated team of over 40 experienced counsellors. Our services span 21 A Level campuses, with outreach initiatives extending to all O Level campuses nationwide. These expert counsellors support students in selecting ideal subject combinations, navigating the college application process, and preparing for standardised and admission tests. Over the past year, our students achieved an exceptional number of acceptances from prestigious universities worldwide.

CAIE A LEVEL RESULTS & COLLEGE SCHOLARSHIPS

ADMISSION CRITERIA

Candidates are selected on the basis of their O Level results, Class X, Class XI, Mid year or Mock Examination results and an interview with the Head of the campus and Career Counsellor to which entry is sought.

FEE STRUCTURE & SCHOLARSHIPS

The A Level fee structure varies from campus to campus and is based on the elective subjects opted by the students. *The City School* offers merit, sports and co-curricular scholarships. These range from 25% to 100% waiver on the tuition fee. Merit scholarships are based on a student's O Level results or equivalent. *The City School* reserves the right to withdraw any scholarship or amend the rules governing the scheme at any time at its sole discretion. Please contact your nearest *The City School* A Level Campus for more details.

PARENT-SCHOOL PARTNERSHIP

Meetings are scheduled for individual students, besides the two regular parent-teacher meetings, each term. Appointments can be made at any time to discuss the progress of students with the teachers and school leaders.
