VISION

The City School believes that every child is important and strives to develop the true potential of each child. Our whole community works together in creating a stimulating hands-on experience for learning, which places the physical and emotional well-being of the child at the centre of a welcoming environment.

OUR AIM

- To encourage students to become inquisitive learners, setting them up for a joyful learning experience
- To encourage an environment that inspires a child's instinctive creativity and imagination whilst fostering our core values, enabling them to become responsible and compassionate members of the society
- To nurture self-confidence, self-esteem and independence

OUR EARLY YEARS APPROACH

Our early-years curriculum adopts an integrative approach, combining elements of STEM, Robotics, and EdTech, with an emphasis on Sustainable Development Goals (SDGs). This approach encourages hands-on learning, critical thinking, and personalised experiences, nurturing globally-conscious, well-rounded individuals equipped with 21st century skills.

ENABLING ENVIRONMENTS A PLACE FOR CHILDREN TO 'BE'

We value the innate potential of each child. Our teachers facilitate young children's learning and thinking through an experiential approach, that encourages child-centred learning inside and outside the classroom.

A UNIQUE CHILD MORE POWER TO THE CHILD

Our role is that of a facilitator, equipping children for life-long learning in the best manner.

POSITIVE RELATIONSHIPS QUALITY CONNECTIONS

Our committed team of teachers works closely with children and parents to create an inspiring and nurturing environment where every child is challenged as well as supported.

LEARNING AND DEVELOPMENT PROBLEM - SOLVING WITH FUN

Our holistic curriculum promotes problem-solving skills by embedding play-based activities. It fosters thinking and provides children with a variety of opportunities to be creatively involved.

Global Mindedness

We aim to foster intercultural understanding, empathy, and a profound knowledge of the world to make children appreciate diversity, and become responsible, compassionate global citizens.

PHYSICAL DEVELOPMENT

In our Early Years programme, sports are not just an extracurricular activity; they are a cornerstone of our curriculum. The programme specifically targets the enhancement of both fine and gross motor skills.

AREAS OF LEARNING & DEVELOPMENT

The seven areas of learning and development at *The City School* focuses at:

1. Personal, Social and Emotional Development
2. Physical Development
3. Communication and Language
4. Mathematics
5. Literacy
6. Understanding the World
7. Expressive Arts and Design

ASSESSMENT

Formative assessments strategies encourage continuous growth. Various tools are employed to measure the progress of individual students, including:

- Student Learning Portfolios
- Student Observations
- Phonics Assessments
- Reading Progress Checks

PARENTAL INVOLVEMENT

Parental engagement is the basis of a strong home-school partnership. To facilitate this relationship, we believe in:

- Exchanging knowledge about a child's needs, activities, interests and progress
- Parent-Teacher Meetings (PTMs) and Individual Parent-Teacher Meetings (IPTMs) that provide an ideal opportunity to discuss active home-learning strategies and progress in school

The City School THE BEST PLACE FOR YOUR CHILD

A different way of learning and teaching

At *The City School*, children learn through indoor and outdoor activities based on their preferences, interest and curiosity. Full engagement leads to a love of learning through which our skilled teachers further develop our children's knowledge, skills and understanding in all areas of learning and development.

Circle **Time**

A dynamic method to build relationships, boost self-esteem, and establish routines, while nurturing inquiry and curiosity. It also cultivates social, emotional, language, and communication skills.

Story **Time**

We bring stories to life as an everyday activity, encouraging the love of language and literature. A variety of curriculum-driven story sessions are used to increase vocabulary and imagination.

EXPLORING CREATIVITY

Our teaching team ensures the opportunity for play, art, music and drama in both indoor and outdoor environments.

BLENDED LEARNING

Blended learning integrates technology and digital media with traditional classroom activities, giving students the flexibility to customise their learning experiences.

- All our schools are Microsoft Schools and have MS Teams features, such as real-time video, collaborative space and more
- Our classrooms and computer labs are integrated with curriculum-aligned applications
- Interactive whiteboards provide hands-on learning

VALUES

Our curriculum inculcates 12 core values, acting as guiding principles in each child's daily life.

LIBRARIES

Our students fully benefit from an extensive collection of classic and contemporary tales, picture books, novelty books, rhyme-time resources, story sacks, and puppets.

SAFETY AND SECURITY

The City School ensures:

- Safe and hazard-free campuses
- Trained campus security teams
- Arrival and departure safety protocols
- Regular emergency drills

Compliance with all safety requirements is strictly monitored by our Department of School Improvement and Quality Assurance.
